Businesses Beautifying Barrington

THE COUNCIL OF BARRINGTON GARDEN CLUBS awarded several businesses in the surrounding Barrington area for excellence in plantings around and near their business entrances in Fall 2018. Last year, nine businesses were chosen in various categories. The project's purpose is to keep the Barrington area beautiful for those who shop or do business in our commercial centers. When you approach a business, notice their beautiful gardens and how this may bring you back there. Also, the drive through and around Barrington is becoming such a pleasure to witness.

The project starts in July of each year when photos of gardening efforts at local businesses are taken and winners are chosen in August by the Council of Barrington Garden Clubs. If your company wishes to be viewed for this project, please contact Susan at 847-382-3708. 

Susan Slapke is a member of the South Barrington Garden Club and assists with the Council of Barrington Garden Clubs Beautification Awards.

Citizens for Conservation received a Special Recognition Award.

Barrington's White House won the Maintenance of Design Award.

The Onion Pub was awarded for Integration of Native Materials.
