Founder's Vision Statement

I believe the two greatest moments in life are, first; when you realize the gift God has given you and second; when you realize how that gift can really help people. So, I designed and built 30,000 square feet of spectacular healthcare space. With 64 exam rooms, luxurious reception areas, and doctors' lounges wrapped around a flexible lease membership for healthcare providers and a patient-first level of hospitality and inspirational care, it's the first of its kind in the world. From pediatricians, dietitians and chiropractors to psychologists and dentists, we offer a space for all healthcare-related practices. Our pediatrics wing is like the Disney World of Doctor's offices, children will actually look forward to going to the doctor. Our luxury reception areas rival that of a fine hotel and offer patients of all ages comfort and compassion, so the healing begins when they walk through the door.
