

KELLY GUINAUGH

INTERIOR ENHANCEMENT GROUP

We bring decades of experience and insight to each project, focusing as much on problem-solving and space planning as choosing timeless furnishings that reflect your taste and lifestyle.

Kelly and her team are known for uniquely personal designs that reflect their client lifestyles.

As our desire to connect with nature continues to trend, creating seamless indoor-outdoor living spaces and four-seasons rooms is high on the must-have list for homeowners nationwide. Earthy, natural elements lend an organic feel that immediately connects to the great outdoors, and materials such as teakwood, limestone, wicker, and other rustic stone create pleasing textural contrast with a timeless appeal. So whether you enjoy the lake life or city dwelling, our firm can help you create a blissful al fresco space that your family and friends will enjoy for years to come.
