

WHO'S WHO IN HOME & GARDEN

## PATRICK FINN

**PATRICK A. FINN, LTD.**

*True Craftsmanship, Flawless Design*

We're an award winning design build firm who specialize in complex residential remodeling projects. We have been in business since 1991 and have completed well over 700 remodeling projects in that time frame.

Our tagline has always been True Craftsmanship, Flawless Design. We cater to a client who craves a timeless home with personalized touches throughout their space. While we work on homes that range from traditional to modern, we bring old world craftsmanship and quality to all of our projects. We pride ourselves on using top quality materials to create homes that are built to last for generations to come.

Home design is continuing to evolve in the post pandemic world. People are looking for their homes to act as a sanctuary, as well as a comfortable place to once again host friends and family. With this, we are seeing a resurgence of natural tones and materials used in home design. Stained cabinetry, natural countertops like marble and quartzite are all continuing to rise in popularity. We are continuing to see a need for multi-functional spaces which allow us to re-think the open concept designs of the past in a way that can separate the home when needed.
