

JENNIFER MCGINNIS

REDUX INTERIOR DESIGN

Areas of Expertise: Whole room, whole floor, whole home design

Signature Style: Modern Classic - Modern take on traditional design

Your home is your refuge. It is a place that is comforting, secure, and all your own. A uniquely tailored place where you can live, work, and entertain with confidence. Many of the trends for 2023 help create a sanctuary that both energizes and revitalizes. Crisp, clean, and vibrant colors are still strong and promote a sense of happiness but we're also seeing shades of brown on the horizon including tan and terra cotta. Incorporating natural elements such as wool or cotton fibers, plants, or stone slabs will teach us to find beauty in imperfection and appreciate nature for what it is. We can't forget about tech trends. This ever-evolving field continues to debut new ways to make our lives simpler. Ovens that cook to exact internal temperatures, showers that you can start with an app, and lighting that is dimmable to instantly change the mood. With that being said, the classics are here to stay. Clean modern lines will always be in style along with the incorporation of traditional elements, cozy fabrics, and comfortable furniture.
