

**Areas of Expertise:** Full service design/build remodeling for kitchens, baths, basements, additions, specialty spaces, whole home renovations, and outdoor living spaces. Our Common Sense Remodeling process ensures every detail of your remodel is handled under one roof by our trusted team of local remodeling experts, from initial designs through completed construction.

**Signature Style:** Fresh, custom spaces uniquely curated for each family we partner with. We believe thoughtfully planned spaces play a pivotal role in how everyone lives. Your home should be designed to accommodate your busy family schedules and include beautiful spaces for you to enjoy your most fulfilling hobbies and leisurely pursuits. Our team elevates everyday moments at home through highly functional home design and exceptional craftsmanship that our clients enjoy for many years.

**Design Trends:** Homeowners are trading builder-grade layouts and finishes for multi-functional rooms with tailored storage solutions that streamline their daily routines. Specialty spaces like mudrooms, home bars, gyms, and offices are being included in multi-room remodels to update the whole home in one cohesive redesign. Warm off-white hues, earthy greens and browns, jewel-toned accents, and bold patterns are all top-of-mind. As far as local home design trends go, we've seen an influx in Barrington homeowners who are excited to create luxury basement spaces to fully maximize their home's potential.
